

NOTE / SLIGHT UPDATE AS IF 02/10/25 : This was written 01/17/25 iirc . i have since began tweeting on main again , as i feel confident in myself so far with changing & im sure I won't harass anyone. I am an adult as of now and have no desire 2 let this drag on & im trying 2 learn better behaviors. as a bonus note , id also to mention , i did finally issue an actual honest apology 2 another person i was called out for being shitty towards who isnt part of weezertwt & i promised that that will be the final time i say anything to him and ive kept mai word .

im doing sum thinking & i dont think i want 2 fully return 2 this acc later this month . ive been trying 2 work on myself & i only recently fully realized how many problems i have . 1st of all , i am starting 2 move past stalking twitter accs . i mostly did it out of paranoia rlly , but its rlly unhealthy 2 check regardless & i dont wanna keep up mai habit of checking ppls profiles & being hateful either . i want 2 & have been trying 2 focus on Myself & the ppl currently in my life lately . i have a life & i already have a lot in that that doesnt involve ex friends & their friends . i also dont wanna keep getting myself worked up & angry ovr shit ppl who arent even a part of mai life anymore r doing , its harmful 2 myself & i get mean when i do it anyway . i need 2 focus on me , im going 2 b 18 in exactly a week & i dont want mai unhealthy behavioral patterns 2 continue in2 mai adulthood . i want 2 heal & i want 2 become a better person .

ill admit a huge problem i have , i admitted this once in private weeks ago & ill admit it again publically : i have a problem with wanting to piss off & upset ppl i hate , especially those who used 2 b part of mai life & those i feel hurt by . its unhealthy & i say & do a lot of shitty things when i get like this . i think the most pettiest example of this would be back in December i spent the month stalking an ex oomf of mine , katti , & i would spam his strawpage jst 2 b an asshole & troll him . this plan was originally thought out by a friend of mine who told me & r gc we have w sum others 2 shit on him & i kinda got so deep in2 it i genuinely would go 2 his strawpage almost daily jst 2 fuck w him . i nawt only was childish & rude , but i also made sum rlly fucked up jokes & art jst 2 get at him 4 liking matt sharp . 4 mai own personal reasons involving mai own trauma , i was deeply uncomfortable w the way he acts towards matt sharp & i also was butthurt he left me ovr sum dumb twitter shit & then started the whole matt sharp thing shortly after & i hated how him & his friends treated me 4 liking brian bell & would make rude & weird jokes abt him but could freely b matt fans & when ppl treated them the same way i got treated 4 being a brian fan it was suddenly "weird & gross" 2 them all . i felt so personally attacked & it i was jst also so disgusted w his whole matt sharp thing & i wanted 2 piss him off . i have a history of getting enjoyment out of pissing off those who i feel hurt by and who i hate & id jst keep going & going 2 get moar & moar of a reaction out of him . its a srs problem of mine . it was fucking stupid , petty , rude & jst plain shitty of me & i have stopped this behavior towards him since i was

confronted abt it by a friend of him & i actually havent stalked his profile in weeks now .

i genuinely do feel bad 4 being such an asshole 2 many ppl as well . ill still say [whether u believe this part or nawt] the nintwt claims r still straight up lies [yes , even the strawpage shit . ill fully admit who in weezertwt i sent strawpage hate & weird shit to , but i didnt do any of that 2 nintwt. I also have since gotten proof that i didnt send the loli porn . the person who did came forward to me & sent proof that he sent it . he regrets doing it and feels awful .] , but i will fully admit i did genuinely do harm 2 & hurt a lotta ppl , katti included [obviously] , & while i still do feel rlly hurt by most of them & while i dont rlly fw the ones spreading mai ex friends lies abt me , i have said & done sum rlly rude & shitty things 2 many ppl & i do regret that fr & i rlly am trying 2 b kinder 2 ppl & b a better person .

no matter how much hurt i felt i still shouldnt have said & done the shit ive done . i do fully believe i went 2 far many times .

if it means anything i sent strawpage 2 these ppl in mai life . plz excuse me if i 4got any1 these r the only ppl i remember rn

katti
fred
& i THINK Cassandra / Jonathan & ratt

ive typed an apology 2 him b4 & this was basically it but the only reason i was shitty towards fred was bc i felt hurt by how how he left me , especially when , while i did act like a creep towards pinkerton , i was still hurting very much & i felt so hurt . not to mention this all happened around the time another friend of mine i rlly enjoyed being around left me . i was hurt i was being left by ppl i thought were mai friends who had mai back & that they couldnt even try 2 give me time 2 properly heal or get help [especially considering 1 of them LITERALLY LEFT ME 2 DAYS AFTER SWEARING HE ONLY WANTED ME 2 GET HELP & ITS JST NAWT ENOUGH TIME i felt liek every1 was jst giving up on me 4 being mentally ill & hurt by sum1 & i do kinda feel bad 4 being a bit of a # weirdo 2 pinkerton , its jst there is a LOT of context ppl arent getting abt how he literally liked mai ship art of us , reciprocated , & was blatantly romantic w me & i did infact ask him if i was creepy 2 him the day he left me , & he swore i didnt & everything was fine & even put 2 frowny faces in that response implying he found mai question sad . then he left me an hour later iirc out of nowhere & i felt so heartbroken & abandoned . i react VERY strongly 2 that sort of thing & it hurt so bad mentally & even physically & it still makes me want 2 kill myself 2 this very day . i genuinely did hurt myself bc of it & planned 2 drink while underage but couldnt find anything in the fridge . it was , & still is rlly painful . but i will admit , i **did** over react , a **lot** actually . sum of the shit i did & said was actually

rlly creepy looking back at it & i do feel bad abt that . i still think he hurt me a lot , but i shouldve been moar chill abt it & i did repeatedly say srry the day he left his old acc but thats often overlooked bc of how desperate i was4 him 2 take me back . tbh i was in a very bad mental state & i still am honestly but it was kinda worse then bc everything was moar fresh in mai mind & i didnt rlly realize how absolutely Insane i sounded at the time . i tend 2 get rlly unhinged when im breaking down & i always do feel bad afterwards . but regardless , i was still [and still am] a hurting mentally ill person who only needed care & time 2 get better . its been months & while i dont say creepy shit abt him , im still nawt healed & i still wanna kill myself ovr it , but im atleast moar sane now & i wish ppl wouldve stayed w me 2 see that happen , i wished ppl wouldve been there 4 me in the same way i wouldve been there 4 a friend of mine if they went thru the same thing i went thru , & its jst kind of what friends do anyway .] though , i understand i still was an asshole 2 him even if i was hurt & i feel bad . i was an asshole 2 him & many others out of hurt & i wish i couldve handled mai emotions better at the time . i shit talked fred a lot publically & privately , i private quote retweeted him 2 say nasty shit , i made hate art in private , i commented rude shit , i sent very mean threats 2 his strawpage . ill admit this , i was a rlly NASTY person towards him . i remembered even directly saying rude shit 2 him ontop of straight up wishing death on him on strawpage & being jst a total piece of shit . i did these things because i was hurt , but mai pain IS NAWT any excuse 2 harass sum1 & send them threats anonymously . i understand this fully looking back & i am srslly so sorry . that was srslly vile of me 2 do & i srslly dont hate him anymoar , i havent since november . i am also srry 4 stealing / ripping off his brian bell bunny design , i did this 2 spite him & piss him off , which was petty & fucking unnecessary . i know he has since left weezertwt but im still srry 4 how rude i was 2 him back in september up until november when i cut that shit out & started feeling bad .

now 4 Cassandra / Jonathan .i am PRETTY SURE he was the guy that was married 2 the Pinkerton acc . he was the lesbian jeff the killer guy , right ? if im correct on this , i also apologized 4 this , but i was anonymous & he didnt even recognize me so i thought it would b nice 2 admit this here & say srry again . when the Pinkerton shit was going on & jst fresh , i was hurt that he saw mai [clearly non-woman self] as a woman & pulled the whole “im gay” thing on me yet claimed 2 b married 2 this other girl & called her his wife . it was dumb af 4 me 2 react strongly 2 that , but i feel all mai emotions rlly strongly & lack emotional regulation & am prone 2 emotional outbursts . i wasnt in a good place mentally & had been breaking down ovr Pinkerton heavily & i took it out on him [cassandra] which was RLLY IMMATURE of me 2 do so & i feel bad 4 that . i believe i told him 2 kill himself on strawpage & that was way 2 far & im srry 4 that . i rlly need 2 work on mai emotions & how 2 control them better & that is smth i plan on trying 2 work on . i dont want 2 hurt other ppl bc im hurt anymoar . its jst a cycle of hurt at this point & its nawt good .

now 4 ratt , mai feelings on this r veri complicated bc i am severely hurt by everything still & i dont rlly 4give how he left me liek that especially without even giving me any time 2 heal , & i also am nawt a huge fan of sum of the things he has done in the past , but i did shit on him in multiple places & im PRETTY SURE strawpage was 1 of them . even if nawt , i still was shitty on twitter & it was still wrong of me 2 do so & i am srry abt doing that . i have have been abandoned & left so many times , its smth i live in constant fear of , & i react incredibly strong 2 it happening again , & i think this was worse bc i was beginning 2 get rlly attached 2 him & i had feelings 4 him as well & it jst hurt even moar . especially w how straight up rude & demonizing he was towards me afterwards , it fucking hurt , man ! he even accused me of straight up sexual harassment which isnt even smth i did & idk it all Broke Me A Lot . but i think i definitely overreacted & perhaps saying rude shit & wishing death / harm on him wasnt the best way 2 react 2 everything & i fully admit i shouldve acted better

& honestly after a whole childhood & teenhood of being abused & hurt repeatedly , i always jump straight 2 wanting 2 hurt ppl back or wanting revenge . ive been so thoroughly hurt in mai life , even sum of mai earliest memories r traumatic . nobody seems 2 care when im hurt & the ones hurting me nevr seem 2 care either , [especially nintwt thats a moar severe example]. it makes me want 2 hurt every1 back bc maybe then theyll know firsthand what it feels like & maybe then theyll finally understand how much they fucked up & maybe then , theyll feel srry & change their ways . but its nawt healthy . if i did every single horrible thing ppl have done 2 me back 2 them , i would incredibly fucking evil & straight up irredeemable . its best 2 try 2 move on from everything painful and heal & i dont rlly wanna use this acc fully until im 100% sure im in a better place . ill probably still reply 2 oomfs here , but im staying on priv accs 4 longer than i originally wanted . i am deeply srry 2 the ppl i named here & i am srry 2 any1 else i may have been terrible towards as well

im struggling 2 rlly remember everything thats happened these past months , so if i didnt say anything 2 u yet & u want an apology from me , send me a message request or add me on discord .

i promise u im nawt sum irredeemable crazy evil person , im an extremely troubled traumatized & mentally ill teenager & i actually want 2 get better & thats what i will try 2 do . im trying 2 b kinder & spread love , nawt hate . in fact , i havent spread hate on strawpage since i stopped sending shit 2 katti . i use strawpage 2 send luv & kindness & art 2 others now , jst how it should b used .

[oh & also i did remember i sent creepy strawpage messages 2 pinkerton & i did say this but as badly as i was hurt by him , i **regret** being so creepy towards him . i was rlly out of it mentally bc of everything & yeah , i admit i went 2 far . im still insanely hurt by it & i still rlly liek & miss him , but i can assure u , i havent creeped on him in months nor do i have it in me 2 stalk him . i couldnt even if i wanted 2 . even seeing him on mai tl on alts makes me wanna kms tbh . & honestly i do rlly wanna try 2 move on from him anyway . i went a bit 2 far , breakdown or nawt , & ill try 2 control myself w that type of thing from now on .]

anyway point is , i fucked up a bunch these past months & im srry . im nawt usually a rude person , i am usually very sweet & i have far 2 much compassion in me & i feel bad ovr the smallest shit . i jst act out when hurt & i apologize 4 any harm i caused in doing so . im srry 4 the death threats , the rude hate messages , & anything genuinely fucked up ive said or sent 2 ppl . im trying 2 reflect on mai actions , focus on myself & getting better , & moving on . ill mostly jst b interacting w friends & distancing myself from all this shit & betting myself .

i wont b publically posting 2 twitter 4 a bit until im sure im in a better place mentally & i wont do anything liek this again

once again , im deeply srry .

sincerely,
frances @pinkertonfan555
